Subject: Approval of Revised Notice of Intention to Commence Large Mining Operations, Pelican Point Mine, M/049/0011, Utah County, Utah

Dear Mr. Edwards:

The Division has received the reclamation surety for the Pelican Point Mine and two copies of the revised NOI. The Division now permits you to begin mining operations as outlined in your revised large mining notice. The permitted disturbed area is now 217 acres. The surety will be reviewed periodically to assure that the bond remains adequate.

The approval or acceptance of a complete notice of intention does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.

Enclosed is a copy of the "approved" Notice of Intention to Commence Large Mining Operations for your files. Please keep your plan current by submitting changes using Form MR-REV-att, which is located on the web at www.dogm.utah.gov.

All future correspondence should reference M/049/0011. Thank you for your help and patience in finalizing this permitting action. Please call me if you have any questions in this regard.

Sincerely,

Paul B. Baker
Minerals Program Manager
